Engineering and Project Studies

- Feasibility Studies
- BOQ and Quantity Surveying
- Project (Static, Architectural) Services
- Project Management (Site Management)

Mold Systems

- - Project Specific Mold Selection and Design
 - Sliding Formwork
 - Climbing Formwork
 - Hydraulic Climbing Formwork
- Conventional Formwork
- Concrete Design Suitable for Formwork Selection and Environmental Conditions
- Establishment of Formwork System and Application Studies

Manufacturing & Assembly

- Project Design with economic solutions
- Structural Steel Fabrication
- Structural Steel Installation

Structural Reinforcement

- Feasibility and Reporting Studies
- Feasibility and Reporting Studies
- Retrofitting Applications

Quality makes the difference !

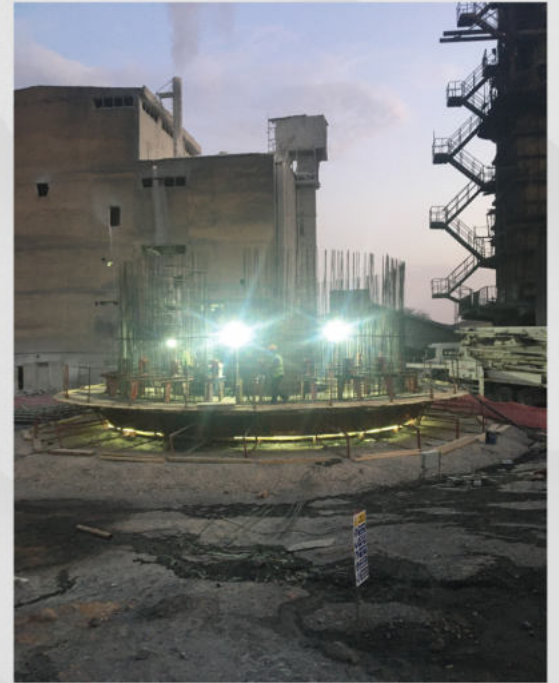

UMAY TEKNİK YAPI started its activities with the aim of creating the standards of a better and higher quality production, eliminating employer - contractor conflicts and insecurity.

Our founders, who have worked professionally in the industrial construction sector for many years, produce engineering solutions with a customer-oriented and efficiency-centered management approach.

UMAY TEKNİK YAPI; Sliding Formwork, Climbing Formwork Manufacturing, Steel Manufacturing and Installation works, Structural Reinforcement, Project Design and Application.

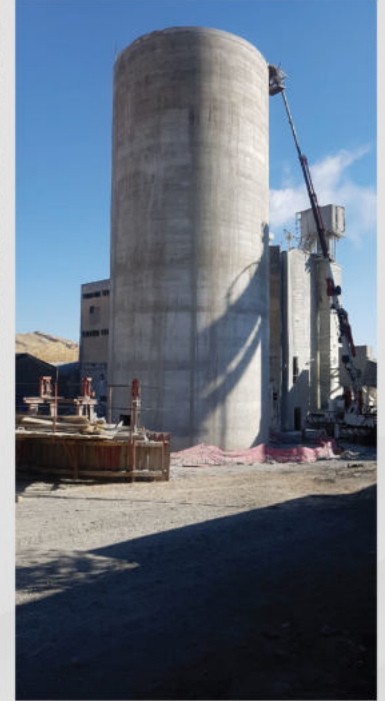

UMAY TEKNİK YAPI, which has gained a respectable place in its sector with the projects it has realized in many areas of Turkey's leading heavy industrial plants, cement and ceramic factories, government tenders, etc. and in many parts of Turkey; continues to contribute to the country's economy and employment with its wide service, knowledge and cooperation network.

TEKNİK YAPI İNŞAAT

Nuhoglu Marsan Mardin Lime Factory

Lime Silo Construction Works

Employer
NUHOGLU MARSAN KIREC

Place of Work:
Mardin

Project Year : 2019

Description of Work:
Construction of 1500 m³ capacity ash silo by sliding mold method.

Employer

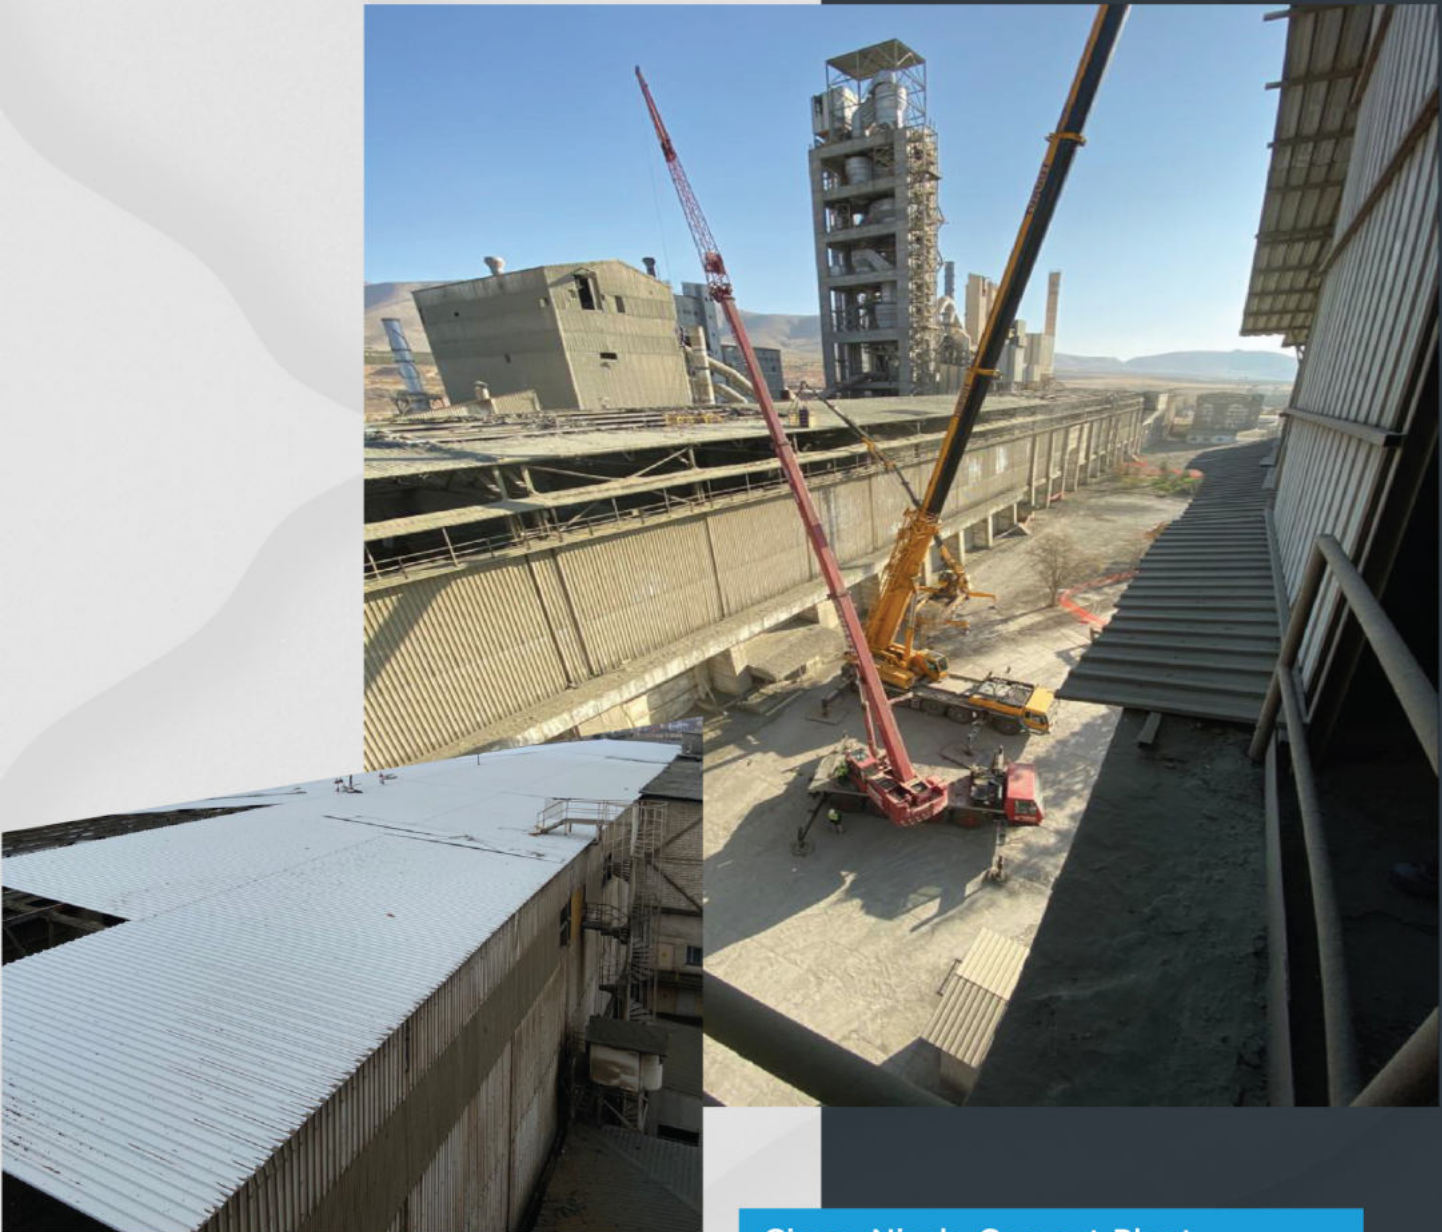

CIMSA NIGDE CEMENT PLANT HORIZONTAL STOCKING HALL CONSTRUCTION WORKS

Place of Work: Nigde

Project Year : 2019

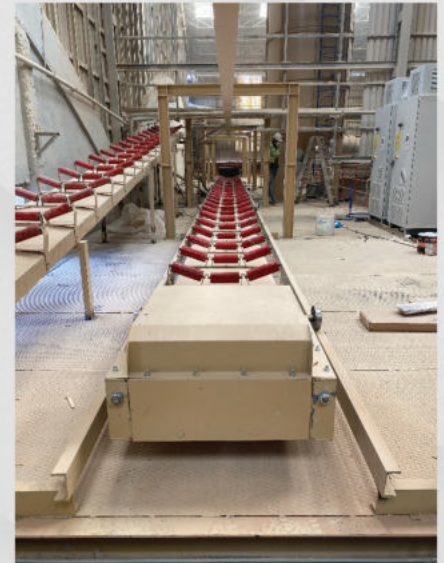

Description of Work:

Breaking the horizontal stockroom roof with unmanned breaking robot and trapezoidal coating.

Cimsa Nigde Cement Plant

Horizontal Stocking Hall
Construction Works

Ege Seramik Factory

3 Units of 68,000 Liter Capacity Horizontal Mills Investment

Employer
EGE SERAMİK

Place of Work:
Kemalpasa / İzmir

Project Year : 2020

Description of Work:

3 new mills, transmission lines and feeding bunker; design, construction, steel fabrication & erection and mechanical fabrication & erection works on turnkey basis.

EGE SERAMİK

Polishing Line Construction Works

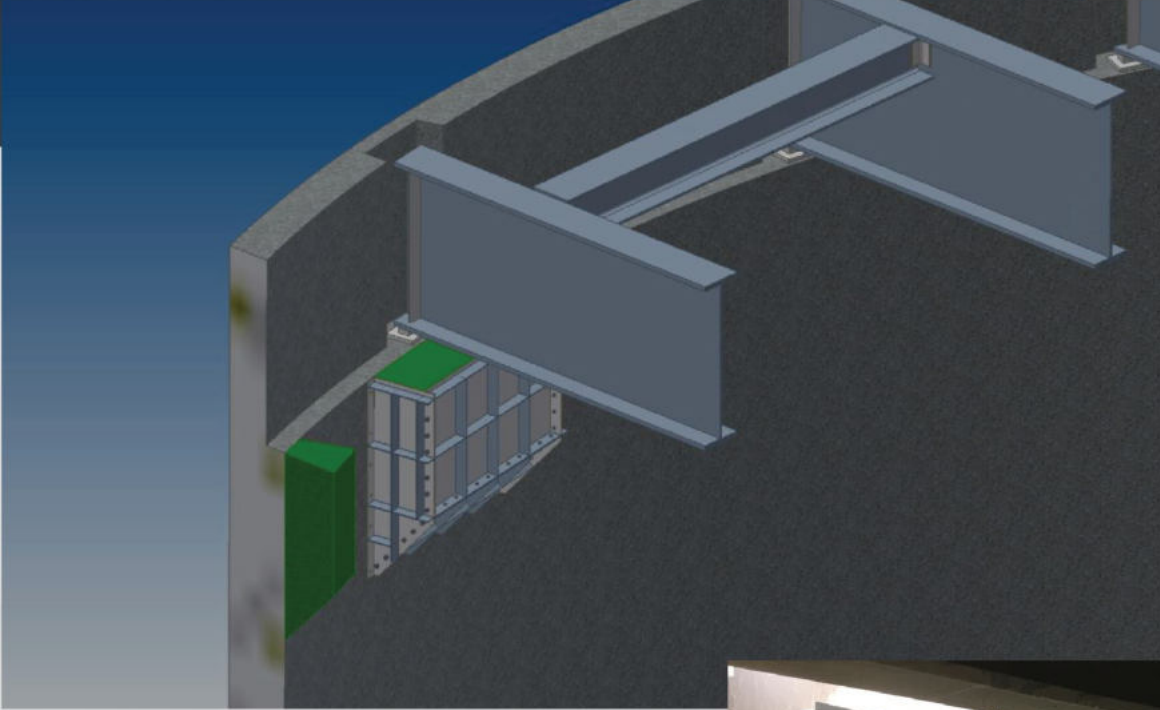

Employer
EGE SERAMİK

Place of Work: Kemalpaşa / İzmir
Project Year : 2020

Description of Work:

Construction works for polishing line and treatment plant.

Employer

OYAK UNYE CEMENT

Place of Work: Unye / Ordu

Project Year : 2020

Description of Work:

Farin silo + 75.000 level composite flooring,
determination, design and application works.

Oyak Unye Cement

Farina Silo Reinforcement Project
& Implementation Works

EGE SERAMİK

Polishing Line Construction Works

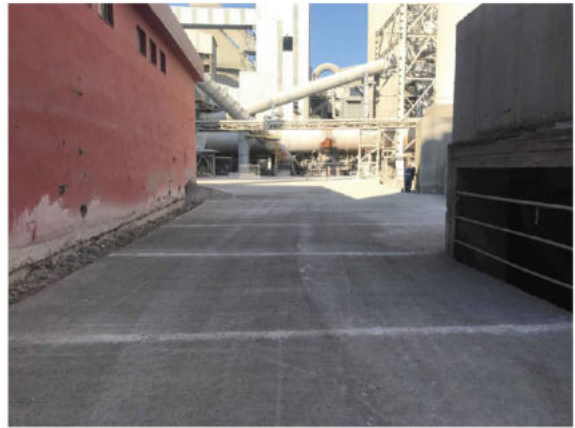

Employer
EGE SERAMİK

Place of Work: Kemalpaşa / İzmir
Project Year : 2020

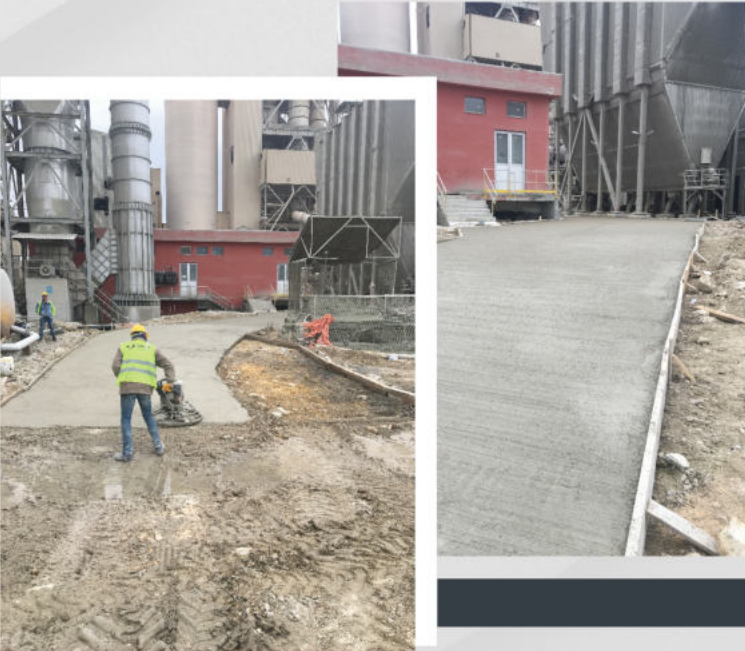

İşin Tanımı :

Construction works for polishing line and treatment plant.

Cimsa Eskisehir Cement Plant

Infrastructure and Field Concrete Construction Works

Employer
CIMS ESKISEHIR CIMENTO

Place of Work: Eskisehir
Project Year : 2019

Description of Work:

Synthetic fiber reinforced field concrete application and infrastructure works inside the factory.

Employer
CIMSA ESKİŞEHİR CIMENTO

Place of Work:
Aliaga - Bergama - Foca - Candarli / İZMİR
Project Year : 2019

Description of Work:
Construction works of overflow ponds and polyure insulation

IZSU Overflow

Basins Construction Works with
Polyurea Insulation

Turk Tuborg Beer Factory

Perimeter Wall Infrastructure and Drainage Works

Employer
YAPI ST

Place of Work: İZMİR
Project Year : 2018

Description of Work:

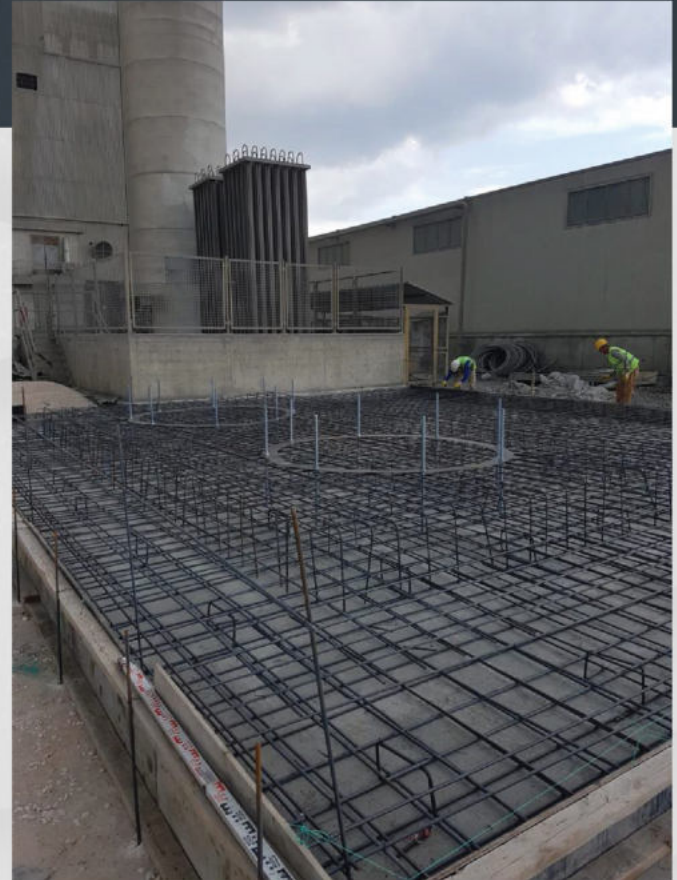

Perimeter wall reinforced concrete construction works, administrative building foundation works, infrastructure and drainage works

Sancim Bilecik Cement Plant

LNG Tank Foundations Construction Works

Employer
SANCIM BILECIK CIMENTO

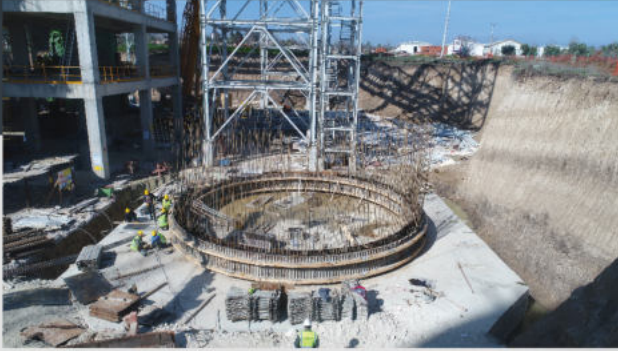

Place of Work: Bilecik
Project Year : 2020

Description of Work:
Turnkey construction of Lng tank foundations

SOMA ÇİMENTO

Plant Fly Ash Silo Construction Works

Employer
TM CONSTRUCTION

Place of Work:
Soma / Manisa

Project Year : 2018

Description of Work:

Construction of 1500 m³ capacity ash silo by sliding mold method.
